Make Life Better™

Product Information Sheet

Bio-C™

Description

Vitamin C is a strong antioxidant. It is water soluble and works together with the body to fight off dangerous free radicals. Because of its antioxidant properties it can be beneficial in preventing a large number of health conditions, such as cardio vascular disease (in particular myocardial infarction), cancers, cataracts, atheroscelerosis, osteoarthritis, etc. Bio_C combines vitamins with bioflavonoids, that are known to enhance the absorption of vitamin C.

Ingredients per daily dose.

Name	Amount	Function
Vitamin C	300 mg	Water soluble antioxidant
Citrus Bioflavonoids	75 mg	Promotes absorption of vitamin C from the GI tract
