

Reliev•Ol®

—“We use the Reliev•Ol in order to control our hard dry coughs, which are asthma related. We also use it for all the allergy related symptoms, sneezing, sore throats, congested sinuses etc.”†
Joy Rouco

Make Life Better

Temporary relief of common cold and allergy symptoms

Almost all of us have suffered with coughs, colds, and allergies many times, and we've turned to medicines for relief. Unfortunately, many of these medicines may interfere with our daily routine.

Unicity has developed a natural alternative for individuals who are fighting coughs, colds, or allergies. Reliev•Ol® is a homeopathic remedy formulated for the temporary, symptomatic relief of nasal congestion, coughing, laryngitis, hoarseness, rhinitis, post-nasal drip, tearing of the eyes, and other common symptoms. With the comforting action of a lozenge and the healing properties of natural herbal extracts, Reliev•Ol® is a safe, strong medicine that does not cause side effects. This product contains no antihistamines and has a pleasant taste.

.....

History of Homeopathy

Homeopathy is a medical approach that respects the wisdom of the human body. Homeopathic medication is holistic, totalistic, and individualistic. Unicity's Homeopathic products bring natural healing to common ailments, including cold, allergy, stress, menopause, minor aches, and damages associated with secondhand smoke and environmental pollution.

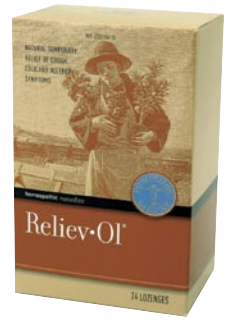

Dr. Samuel Hahnemann first developed the system of homeopathy two hundred years ago. He discovered that, when given in a tiny dose to a sick person, a substance that causes the symptoms of an illness acts as a trigger to intensify the healing processes that the body's immune system has already begun.

Research Brief

Colds and allergies are prevalent viral infections that do not respond to antibiotics. Once infected, you will experience symptoms of illness until your body generates enough antibodies to destroy the virus.

Viruses can survive for many hours on skin, such as our hands, and on inanimate objects, such as a door handle, phone, or writing instrument. When you touch an object on which a virus is temporarily living, you can pick up the germ, which can then enter your system through the mouth, eyes, or any mucous membrane. One of the best ways to protect yourself is to wash your hands frequently to remove viruses you may have encountered.

To provide comfort while your body fights a virus, drink plenty of fluids, get ample rest, eat a well-balanced diet, and take nutritional supplements to ensure that your body gets the nutrients needed to restore health. In addition, Reliev•Ol® can provide much-needed relief from the symptoms associated with colds.
